Index 70

Dear retail partners,

Our tradition dates back centuries and is an important part of what we do. It is our greatest passion, one that rests on the values we have learned.

As a family-owned company, we intend to carry on with our production sites in Kirchanschöring and Europe. At this moment, time has shown us again how important it is to rely on our own production capabilities and expand them.

We grew up in nature and have learned to love and appreciate it. This is why we care about it so much and try to use the available resources as carefully as possible. As we have been aware for a long time, it is better to repair things rather than discard them. We practice this consistently through our in-house repair service.

Sustainability has always been a priority for us, which is why we launched our logo “the green tree” back in 1993. In order to explain this in more detail in the future, we have divided the information into the nine #MeindlEcoSteps.

Sustainability is more than just a goal – it is a path. It is a path we constantly follow, which always leads us to new ideas and suggestions. For more information, please visit www.meindl.de/nachhaltigkeit.

With every step we take, our focus is always on the function and reliability of our products, knowing that our customers’ requirements have not changed.

Our aim is to keep being an innovative and reliable partner for you as our specialist trade partner. We will therefore continue to provide the repair service we have always offered you. Given that demand has increased dramatically, it is important to pursue improvements in this process as well, for which we would appreciate your support.

Our catalogue is organised in the usual way, with the new products at the beginning, featuring plenty of interesting details and many innovations. The entire collection starts on page 28 as usual.

All of us from the Meindl team are enthusiastically awaiting your feedback on the new collection. We look forward to our continuing partnership.

Lars Meindl

Lukas Meindl

#MeindlEcoSteps

Every single day, we go one step further. EcoStep by EcoStep.

Our products allow people to experience nature, and this is why it matters so much to us to protect nature and to care for it in every respect. Based on this awareness, we do not see sustainability as a collection of clever advertising claims.

Sustainability is a path we are taking, one that leads us to become better every day while focusing on the quality of our products with innovative ideas and above all a strong sense of responsibility that we, as a Bavarian family business, have assumed for more than 300 years.

We call this **sustainability in keeping with tradition.**

DEVELOPMENT

The Meindl #EcoSteps describe the most important steps we have already taken on the path to sustainability. Each #EcoStep is constantly being developed further, grows and branches out. The #EcoSteps are the basis of our work and provide the path for sustainable development. Holistically – step by step.

Follow these #EcoSteps with us – we will keep you up to date on our content and developments. We keep you up to date at www.meindl.de

The Individual Fit

- The Memory Foam System wraps around the entire ankle for a perfect fit
- Soft, padded leather cuff ensures maximum comfort
- DiGAfix® deep draw hooks help keep the heel firmly in place
- Two-zone lacing for individual adjustment
- TPU heel spoiler provides increased stability and has integrated pro and supination supports

The MFS principle

The MFS foam in the upper and the SOFT PRINT foam in the foot-bed adapt perfectly to the shape of the foot due to body heat and/or pressure.

Lacing to the toe for best fit

variofix®

MEINDL

Litepeak Lady GTX

variofix® 3 System

The variofix® lacing system provides a perfect fit – and has proven itself over many years and been continually improved. In the heel area, the variofix® system that runs around the heel provides good heel positioning. When lacing up, the free-running „Speed Wire“ is pulled in closely and evenly around the heel. This guarantees better support.

Climate control in the boot

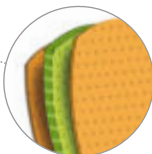

- The Air Revolution® tongue is designed with 3D mesh to allow air to pass through. It sits directly on the foot and ensures high airflow
- Lacing to the toe enables adjustment for an individual fit
- TPU spoiler improves heel stability; soft, well-cushioned sole ensures maximum comfort
- Non-slip Meindl Multigriff® tread by Vibram®

Go online/

Soft leather cuffs

Air Revolution®-tongue

Air Revolution 2.6

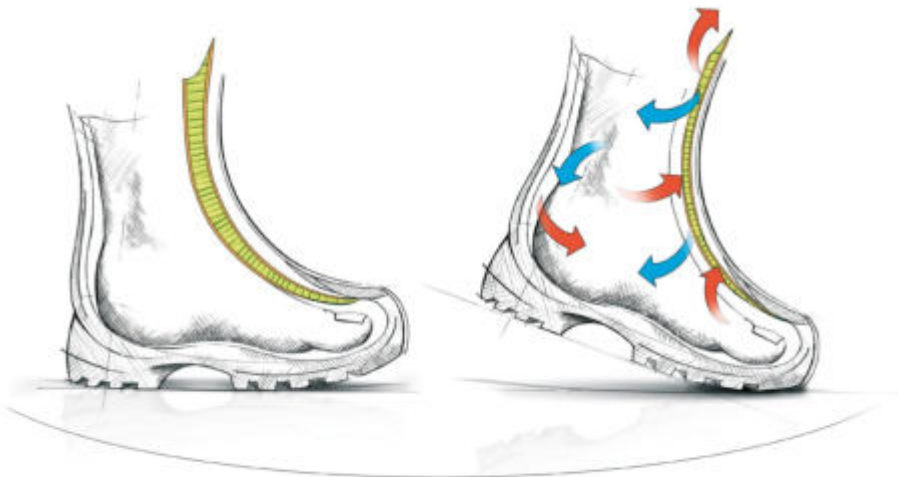

Integrated TPU heel cup with PU-Shockabsorber

AIR REVOLUTION® Technology

The tongue adjacent to the foot is a combination of 3D mesh and a permanently cushioning, reticulated and perforated foam. The Air Revolution® tongue extends beyond the top of the boot and facilitates air circulation. It is simply fixed at certain points on the front of the foot and instep in order to support air circulation.

PURE FEELING. PURE YOU.

Comfortfit®

Pure feeling. Pure you.

- The leather upper is softly padded in the heel
- Tongue drawn far forward, makes fitting very easy
- Removable, softly padded Comfort fit® footbed
- The sole compensates for unevenness of the ground and protects the sole of the foot
- The shoe's wide Comfort fit® shape, its high flexibility and the neutral position of the sole give wearers the feeling of walking barefoot
- The ideal companion for many sports activities

Comfort fit® concept

In comparison to a trekking last, our Comfort fit® last has more space at the front of the foot with a firm grip on the heel. You stand on a wider base. The more defined contour enables easier rollover when walking.

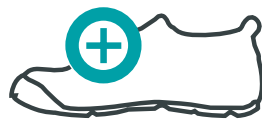

- 1 More room for toes and more capacity.
- 2 More ball width and straight adjustment of the big toe.
- 3 Wider stance due to wider sole base.
- 4 Perfect fit due to the snug-fitting heel.

FUNCTIONAL & ECO-FRIENDLY

To protect the environment and to use resources as responsibly as possible, we have developed a new rubber compound that is made up of 22 per cent recycled rubber. To do this, the offcuts produced during manufacturing are reused in the production process. This helps us to save raw materials and avoid any unnecessary transport. The rubber percentage has been formulated in order to retain the wear and grip properties along with the familiar Meindl quality.

Size: 3 - 14
VPE: 1 Pair

MEINDL Sock – the intelligent interface between shoe and foot

Perfect fit with high wearing comfort is the credo of our sock collection. They anatomically adapted to the foot of men, women and children. The ergonomic padding at the stress points with reinforcements are just in the toe and heel are aarranged to make the sock even more durable. We use only high quality, innovative yarns and produce on the most modern knitting machines. Our socks have Ökotex 100 standard. Conciously we use many natural materials like merino wool and micromodal fibers. Modal is produced in Austria and consists of ecological cellulose. We deliberately avoid cotton, because among other things enormous amounts of water is needed in the extraction process. Our ergonomic socks fit perfectly to the foot. The different models are professionally adapted to the various climatic conditions.

Comfort fit® shoe concept

Approx. weight per shoe/boot:
Women's styles – UK size 4.5
Men's styles – UK size 8

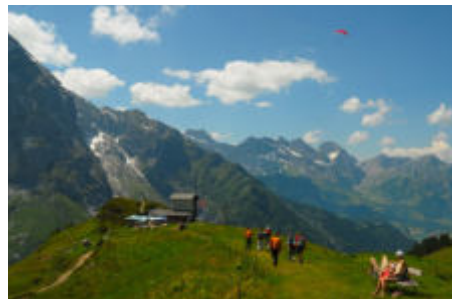

Types of use

Multifunctional boot or shoe – for leisure, outdoor sports activities, travelling and for everyday use.

Introductory boot for walking & trekking – on high alpine pastures, in low mountain ranges and on maintained paths.

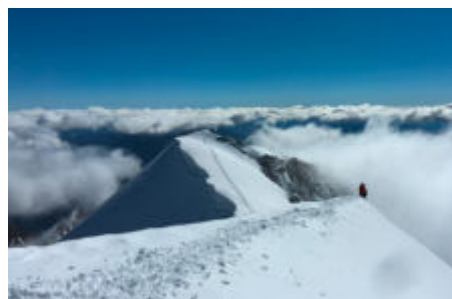

The trekking „classic“ – for lengthy walks and comfortable hikes in a gentle alpine landscape.

Trekking boot for ambitious trekking – in low alpine ranges and on fixed rope routes (suitable for flexible crampons).

The alpine boot – particularly stable for alpine trekking in rocky landscapes, on rock faces, scree and glaciers; suitable for use with crampons.

The ultimate alpine boot – completely reliable for extreme use in critical landscapes, totally robust for use with crampons.
